

We took the DiGi D-Series pixelstrip and made it perfect for rental use. The pixelstrip is equipped with the latest RGB LED technology. The profile is available in 10 and 60 pixels per metre. The 60 pixels variant contains 1 LED per pixel, which gives you the ability to make colorful effects. The LEDs are placed in a light aluminium profile that offers cooling and are easy to mount.

Technical specifications		35568	35569
General	Dimensions Cover Housing color Housing material Nett. weight	1000 x 26 x 45 mm Aluminium with lens Black Aluminium 780 g	1000 x 26 x 45 mm Aluminium with lens Black Aluminium 780 g
