

Important:

- Make sure power is disconnected during installation or maintenance
- Do not attempt installation in wet or severe weather conditions
- Keep cables protected from sharp objects to prevent damage
- Make sure unconnected fixtures are not exposed to raining/ snowing environment

Minimum of 4mm spacing between fixtures to allow thermal expansion

For waterproof connection make sure that the last fixture has the endcap connector fixed to the output connector

Use the Hex key to fully secure the fixture when the desired angle has been set
